## Pioneering Quality and Innovation

Established in 2023, Unicor Pharmatech LLP is a fast-growing pharmaceutical manufacturer operating a state-of-the-art facility built in compliance with global standards, ICH guidelines, and GMP requirements.

Spanning 9,814 square meters, our modern pharmaceutical manufacturing facility is strategically situated on the Gandhidham-Mundra National Highway in Kutch, Gujarat, India, offering excellent logistical advantages with direct access to three major ports – Mundra, Kandla, and Tuna. This prime location ensures smooth, reliable, and cost-effective global distribution to our international partners.

The facility is supported by fully equipped in-house F&D, Quality Control (QC), and Microbiology laboratories, enabling rapid product development, precise testing, and reliable quality assurance in compliance with regulatory standards.

As a fast-growing pharmaceutical manufacturer, we hold multiple international regulatory accreditations and are steadily expanding our global compliance footprint by pursuing additional country.

### Our Vision

To be recognized as a pioneer and leader in the field of healthcare by consistently offering high quality medicines at the most affordable price across India and the globe to enhance quality of life of human beings.

### Our Mission

To be recognized as an emerging global pharmaceutical company by 2027 and have a strong presence in international regulated market by offering an innovative, cost effective and quality products portfolio in targeted segments.

### Our Values

The company strictly believes in ethics and moral values throughout the operations of the business. Our values are depicted in everything we do on a daily basis and have become a culture in our organization.

**Certified, compliant, and trusted**—our operations align with recognized **National** and **International quality** standards.
